

STREET WORKS DEPARTMENT ESTIMATES HELD UP BY THE CITY COUNCIL FOR REPORT

REPORT OF UEBEC GRAFT CONSIDERED

Expected There Will Be Sharp Fight Regarding Mousseau Allegations.

BEEHIVE WHITEWASHING IN COMMITTEES REPORT

Looking for Lawyers Who Accepted Fees Which Were Really Bribes.

Quebec, Feb. 13.—The hearing this afternoon will take up for consideration of the special committee report on the charges against Joseph Octave Mousseau and hereby began the opening of a sharp fight. Shortly before midnight yesterday, Mr. Tardieu, chairman of the lower house committee, moved and it was adopted that the report of the special committee appointed to enquire into the charges made against Mr. Mousseau be entered in the order of the day to be taken into consideration by this house at its sitting on Friday afternoon, Feb. 14.

Think Motion Violation

Among the more militant members of the opposition there is a feeling that the motion is a violation of the agreement reached yesterday afternoon that the report should not be taken into consideration till printed copies of the evidence are in the hands of members. But the opposition leader himself does not share this view. When the motion was adopted, Mr. Tardieu was one of the few opposition members present. "It does not follow," he remarked Mr. Tardieu this morning, "because the motion is in the order paper we shall proceed to discussion. If we are not ready there will be adjournment."

Opposition criticism is likely to be strongly directed against the committee's finding that the evidence proves that no other members of this house has received anything to secure the passing of the bill. Conservative members contend that such a finding does not represent the evidence at all. All that the evidence shows, they argue, is that there is no proof that any other member of the assembly accepted money.

In Reality Bribes

It is probable that an amendment along these lines will be moved from the left of the speaker. There is every likelihood that Mr. Lavigne will again bring up the question of obtaining the names of lawyers, also members of the legislature, alleged to have received fees for professional services which in reality bribes, in his evidence, Mr. Tardieu declared that he had been informed of the existence of receipts for such payments.

Criticism of the upper house is directed chiefly against the reference to the names of other councillors besides Messrs. Bernard and Bergevin, mentioned in the course of the inquiry.

Edmonton Bonds Prove Magnet English Investors

Edmonton debentures are selling higher than those of any other Western Canadian city and second to but one city of Canada. The five percents are quoted above par. That the city will find a ready market for this year's debentures seems quite probable.

In the January number of "Canada" on page 123 Edmonton debentures issued September of last year are quoted now at 101.93, which is nearly two cents above par. The following tabular data will show the rise in the value of Edmonton bonds since last week and the date since:

Date of Issue	Am't Issued	Rate	Price	Price
October 12, '07	£139,400	5 per cent	100	100.97
April 6, '08	187,400	5 per cent	101	100.97
July 12, '09	187,000	4½ per cent	102½	91.59

HARCOURT'S SPEECH LIKELY TO BECOME ALMOST A CLASSIC

Referred to Recent Deportation of Labor Leaders From South Africa.

GIVES WARNING REGARDING GOVERNING OF COLONIES

English Paper Says Dominions Are Now Beginning to Assert Liberties.

London, Feb. 12.—Much attention is given today to the speech yesterday of Mr. Harcourt, the colonial secretary in the house of commons on the deportation of the labor leaders from South Africa, a speech likely to become almost a classic among political utterances.

The Evening Standard remarks that the tendency on the part of the cabinet to assert their liberties grows year by year. "In spite of the conquest of distance by telegraph we at home have to work warily, especially as our returning governors now and again give unwholesome hints that it would tend to better relations if, instead of summing up ex-soldiers and ex-politicians into the governments of countries with which they have nothing in common we sent men from the colonial office actually in touch with those countries."

TO BROADEN SCOPE OF OPERATIONS AND INVEST ELSEWHERE

London, Feb. 12.—Less than a dozen shareholders attended today's meeting of the Western Canada Trust company, under the presidency of Sir Max Aitken when it was resolved to purchase the Canadian Aid Empire investment and Trust company and change the name of the joint concern to the Equitable Trust of London. The capital of the company was increased £200,000. Sir Max Aitken has accepted the chairmanship and it is Mr. White, of Toronto, was appointed manager.

Sir Max mentioned that the company proposed to broaden the scope of its operations by making investments elsewhere than in Canada. They had received, he said, great offers from most of their Canadian investors, but the management considered that if they broadened operations the latter would not be susceptible to the varying conditions in Canada such as changes in harvest.

At the close of the meeting Sir Max stated that he anticipates a similar happy state of affairs this year as last in regard to Canadian business on both sides of the water. In other directions it is an anxious business that moved attention, but being given here to Canadian matters.

FEDERAL COMMANDER ORDERS EXECUTION OF TWO OFFICERS

Tampico, Feb. 12.—A lieutenant and a sergeant of the Mexican federal army were executed here yesterday by order of General Manuel Zarazua, federal commander, after they had been convicted by court martial of waylaying, robbing and murdering Fred Martin, a colored man, who was formerly a soldier in the United States army. Martin was on the way to Altamira from Tampico, where he had just drawn his pension on January 26, when the crime was committed and he met his death.

ST. LOUIS ALMOST SNOWBOUND RESULT OF BAD BLIZZARD

St. Louis, Mo., Feb. 12.—St. Louis was nearly snowbound today as a result of a blizzard that started late yesterday afternoon and what at 10 o'clock today was at the height of its fury. At 9 o'clock the weather bureau reported ten inches of snow had fallen. More snow tonight is predicted and indications were that the storm would continue unabated throughout the day.

WESTERN WRITER FAVORS CARNIVAL DURING SUMMER

Struck by Novelty of Proposal Is Now Enthusiastic Over It.

HARD WORKING NORTHERN SUN WILL DO ITS SHARE

Pacific Coast Advertising Men Will Visit Here For Two Days.

Walter V. Woolfke, who spoke on Constructive Community Publicity at the industrial association's luncheon yesterday, and who, by his "Pulse of the West" articles in the Sunset magazine, is determined to move the population of the eastern half of the continent to the west, is very much struck by the novelty of the proposed 1915 twelfth carnival for Edmonton.

"Seattle is having a golden patch," said Mr. Woolfke today, "Victoria a water carnival, Portland a rose festival, Los Angeles a floral festival, Pasadena a tournament of roses in January, Monterey a historical pageant, San Jose a blossom festival, Tacoma its Monte Carlo festival, Boise its Rain Makers' carnival, Spokane a celebration in the nature of a stampede and Vancouver some kind of a short exposition. Some of them are new and some are annual events, but they will be held on a much larger scale than usual, the idea being to catch a large part of those going to and coming from the two big expositions of the year at San Diego and San Francisco."

"That you in Edmonton here, where the summer overtime in the summer days, will be able to have a carnival which none of the others can possibly have. You will have, almost no competition, while all the others will be competitive with every other. You will also have what very few of them have, the transcontinental railways with three magnificent scenic trips. And then there is the Peace River country, where they tell me they can cut wheat at 12 o'clock at night without artificial light. I am going to take a trip to the Peace River country next summer. I wish I had time to do it now."

Mr. Woolfke is also determined to have the delegation of coast advertising men going from Vancouver to Toronto in June stop off here, for a day, but for 48 hours, if only for the purpose of spending an evening or two in the city in the long days. He will also bring up with President Woodhead of the associated clubs on his return to Frisco, for which he leaves tonight.

WILL ADVERTISE FOR SECRETARY FOR ELECTIVE COMMISSION

The committee appointed by the city council to proceed with the gathering and compilation of data and the preparation of a draft city charter decided to advertise for a secretary when a meeting was held this morning to discuss organization procedure.

Up until Tuesday, Alderman James East, chairman of the committee, will receive applications for the position of secretary to such committee. The maximum salary is \$225 a month, agreed on by the committee.

The position is to last until May 1, by which time the committee is to present its report. Alderman East explained the position to the committee, stating that the secretary must have knowledge of government by elective commission in all its phases and be informed as to charters and municipal government in general, besides a knowledge of the Edmonton charter and the municipal government there under. The secretary will have to do the actual work under the Pacific coast where he will be.

FOOD SUPPLIES ARE SENT ON ICE TO TUG POTOMAC IMPRISONED

Curling, Nfld. Feb. 12.—Food supplies for a week were sent across the ice to the imprisoned, United States naval tug Potomac yesterday. The tug was very firm for some distance before the tug, and a heavy cable was blowing on shore from the Gulf of St. Lawrence. The release of the tug was not expected until the wind changes and the weather moderates.

UNEMPLOYED WHO WOULD NOT WORK WILL HAVE TO NOW

Magistrate Made Example of Eight By Sending Them Down.

RELIEF OFFICERS STATES HE OFFERED THEM JOBS

Were Continually Around Office Asking for a Place to Sleep.

An example was made this morning in the police court of eight unemployed who were arrested last night at the request of Mr. Turnbull, the relief officer, when seven of the offenders were sentenced to 30 days each in the workhouse, and an eighth offender got off with 15 days imprisonment.

The names of the men who were sentenced are: Mike Haulick, Charles Skayuk, Steve Baran, Mike Masduky, Mike Costick, Pete Jarman and Frank Radyna. These men were all sentenced to 30 days, and Mike Zawanski got off with 15 days. The reason that Zawanski got off with the lighter sentence was on account of his having done some work this year, while the other men had not worked for periods varying from two months to eight months. Mr. Turnbull, who gave evidence against the men, stated that they had been at the exhibition grounds around his office for sleeping accommodation and free meals, and that he had not made an effort to obtain work for them. Frank Radyna, who was offered a position by Mr. Turnbull to go to the bush and receive \$30 and board per month. This job the man refused, giving as an excuse that he was inexperienced. Another of the men, Mike Costick, who was offered a position by Mr. Turnbull to go to the bush and receive \$30 and board per month, where he would give him another chance, yet he had not done a tap of work since he was let off.

MAY SUCCEED FATHER AS ACTIVE HEAD OF CANADIAN NORTHERN

Winnipeg, Man., Feb. 12.—There is the highest authority for the statement that E. C. MacKenzie, son of Sir William MacKenzie, who returned to Winnipeg this week after an absence of two years in California will become the active head of the Canadian Northern line west of Lake Superior to the Pacific coast, taking the position of second vice-president. He will be in complete control of the transcontinental when it is opened this summer and will devote all his attention to its management. It is also understood that A. E. Warren, present assistant general manager in Winnipeg, will remove to the Pacific coast where he will become manager of the Canadian Northern Mountain division, and that General Superintendent J. R. Cameron of this city will be promoted.

QUEBEC MEMBERS FOUND GUILTY ON GRAFT CHARGES

Quebec, Feb. 12.—Both the legislative council and assembly investigating committee made their reports yesterday and James Nees, formerly manager of Lipton, limited, at Malta, and of Archibald Minto another employee of the firm, have been charged with receiving or giving illicit commission on contract for army canteen supplies.

DELAY PENDING DECISION ABOUT POLICY FOR YEAR

Recommendations Will Come Directly From the Mayor Who Has Control.

RUSSELL C. CHOWN IS TO SUCCEED LINTHICUM

Old Question of Whether Utilities Should Do Purchasing, to Come Up.

Stores and works department estimates held up by the city council pending a report from the city commissioners as to what policy it is intended to pursue this year, the resignation of J. C. Linticum, and the intention to appoint Russell C. Chown as stores and works superintendent are developments in this particular branch of the municipal activities since yesterday.

The report of the commissioners as to policy to pursue this year with reference to the stores and works department will come directly from Mayor W. J. McNamara who is directly in control of that department. The question to be determined is whether the scope of the department shall be enlarged or shall be curtailed. This question he did not much move the question of whether utilities should be privileged to do their own purchasing.

Far New Superintendent

It is the unsatisfactory conditions prevailing at the stores and works department that caused the city council to refuse to pass the \$175,000 estimates of the department. These estimates it is to be understood mean that this money must be raised or actually taken from current expenditure. The department charges the various departments a percentage for handling their supplies for them. This is a question that must be determined.

Russell C. Chown, of the hardware firm of Chown Hardware Ltd., of this city, has been named to succeed Linticum as superintendent.

The filling of this position is at the discretion of Mayor McNamara as he is responsible for the stores and works department operations. The other members of the commission board are required to vote on the appointment to constitute its legality.

Mr. Chown has been favorably known in this city for some time, where the firm of which he is a member has been in business for nearly seven years.

He Hails from Ontario where he was prominent in commercial circles. He was last president of the Ontario Retail Merchants association. Mr. Chown, also, is not unfamiliar with municipal work. For three years he has been Belleville's city council and as chairman of the water works committee reduced the cost to consumers 25 per cent.

Owing to Mr. Linticum's unwilling to secure leave of absence immediately, it is expected that Mr. Chown will assume his duties on Monday morning.

The resignation of Mr. Linticum was made public this morning, the mayor being absent from the meeting when the communication was received.

Estimates Not Passed.

The city council this morning refused to pass the \$100,000 estimates for meeting current deficits in hospital operation in this city. The council wishes to deal with the hospital board in an effort to bring the Royal Alexandra, the Strathcona, and the isolation hospitals under the direct jurisdiction of the committee of health and safety. And the council decided that the conference might better be held before money for the hospitals is provided.

It appears that a charter amendment may be required before the hospital board can be relieved of its functions. However, some arrangement with the board may be brought about pending such time, whereby the same results may be attained.

WARRANTS ISSUED IN CONNECTION WITH CANTEEN SCANDALS

London, Feb. 12.—Sharp action was taken today by the police in connection with the British army canteen scandal. Warrants were issued for the arrest of James Nees, formerly manager of Lipton, limited, at Malta, and of Archibald Minto another employee of the firm. Neither of them appeared to answer the summons sent to them when the case opened. Nees however, he is in Canada and Minto is said to be in France. Altogether nine army officers and eight employees of the firm have been charged with receiving or giving illicit commission on contract for army canteen supplies.

ANNIVERSARY OF LINCOLN'S BIRTH HONORED IN CITY

Under Auspices of Canadian-American Club Alex. Stuart, K.C., Gives Lecture.

CONSIDERS DEAR OLD AB GREATEST MAN IN HISTORY

Reviewed "Political Situation Leading Up To Time of Civil War."

Abraham Lincoln, one of America's greatest heroes, was fittingly honored last evening when several hundred Canadian-American club members gathered at the Methodist church to observe the anniversary of the birth of the universally beloved, and martyred president. The commemoration was under the auspices of the Canadian-American club, and the organization of loyal, patriotic Canadian-Americans who have recently organized an organization for perpetuating memories of great men and great institutions of the land of their birth. At the same time, the organization of the most wholesome loyalty and love for the land of their adoption.

The feature of the evening was an address delivered by Alex. Stuart, K.C., on the remarkable life and the great service of the Illinois railroader. Mr. Stuart is probably one of the best known men on the life and character of this great American benefactor to the world.

ED INDigestion, DYSPEPSIA, GAS, SOUR STOMACH, PAPE'S DIAPHRAGM

Time!! In five minutes your upset stomach will feel fine.

You don't want a slow remedy when your stomach is bad—or an uncertain one—or a harmful one—your stomach is too valuable; you mustn't injure it with drugs.

Pape's Diaphragm is noted for its speed in giving relief; it's harmless; it's certain; it's safe. It regulates the stomach, soothes the stomach, it's millions of cures in indigestion, dyspepsia, gastritis and other stomach troubles has been found north of the forty-ninth.

Orchestral music, consisting of American songs and airs, played by the Polmar sisters, was especially well rendered and most heartily enjoyed.

The Canadian-American society will meet in business session next on the 19th, in the office of the industrial commissioner, at the city hall.

Although organized but a very short time, the Canadian-American society has a membership of over 200 and it is growing every day.

Address Scholarly Effort
The address of Alex. Stuart, K.C., was enjoyed most heartily and appreciated as a scholarly effort, is evidenced by the fact that many Canadian-Americans pronounced it superior to anything they had ever heard of similar character.

Some of the interesting passages of Mr. Stuart's address were as follows: Golden Smith says that the cause of the revolution would have been ten times as great for Abraham Lincoln. If men of action are the first men of a nation, these two are the greatest in American history, in many respects the greatest in all history. It is no purpose that we compare them to ascertain which was the greater; they were both so pre-eminent that great and yet so different.

Reviewed Political Situation
Mr. Stuart then moved on to a very important review of the political situation in the United States which led up to the Civil War and the emancipation of the slaves. His understanding and insight into the character of the people of the different states and their mental attitude upon various American political subjects was thorough. He discussed the state of the nation, the Missouri compromise, the John Brown episode, periods of critical moment when state-manship and diplomacy scarcely availed.

Edmonton, Alberta, was the scene of a national calamity, with a knowledge and a fairness that earned the fullest approval of all.

Following his historical review of conditions which demanded a hero, and found one in the person of Abraham Lincoln, Mr. Stuart turned his attention to the Lincoln family and presented these facts with such touch of human interest that the old story was delightful.

"Honest Abe."
The Lincoln stock was traced back to New England, and brought down to the miserably poor parentage of "Honest Abe" during the Revolutionary war. The life of the martyred president was followed closely, his public services in legislature and congress, and eventually his election to the presidency. Here Mr. Stuart briefly presented some of the great obstacles and difficulties, internally with the cabinet, as well as with the army of the south, which the great statesman met with such wisdom.

"Before the war was over," Mr. Stuart continued, "the wisdom, the courage, the statesmanship, the strength of the great president attracted the admiration of all humanity and they recognized in him a patriot, a leader, a great and a great leader of that Washington. The world lives in awe of the beauty of his character. The immortal soldier was impressed with it."

made it famous the world over.
Keep this perfect stomach doctor in your home—up to hand—get a large fifty-cent case from any drug store, and then if anyone should eat something which doesn't agree with them, if what they eat lays like lead, ferments and causes gas, causes headache, dizziness and indigestion, take Pape's Diaphragm and remember as soon as Pape's Diaphragm comes in contact with the stomach, all such distressing variables disappear. Certainty and ease in overcoming the worst stomach disorders is a revelation to those who try it.

There has been much discussion as to the place of Lincoln among the great men of the world. My estimate is that he will rank among the greatest of all time.

Ode to Lincoln
An Ode to Lincoln written by T. P. Bryan and read by him last evening.

Among the great, the noble men of earth,
Who stand of worth did come from nature's hand,
Lincoln, amid the foremost, takes his stand,
Spoke handiworks of humble birth.

By Providence this blessing doth appear,
A boon that Heaven did to him impart.
The men of sorrow to his lowly heart,
Their griefs might bring and meet with cheer.

That victories hard won in Civil war,
Which his dead cheek should grieve his loving soul,
As when the cheers the other way did roll,
And his loved Union's strength mar.

His homely wisdom great as kindly heart,
Ever held the ship of state on kindred way,
His love through the storm to calm her day,
The Union saved by his kind art.

**SUGAR COMMITTED
ON FELONY CHARGE
IN POLICE COURT**

Charged with felony, John Sugar was this morning committed for trial by Magistrate Macdonald. It is alleged that on December 19, he approached Jack Barabaz and told him that his brother David and another man named P. J. Shole were arrested and that unless he gave him \$75, he would have him sentenced to months imprisonment, thinking that his brother had possibly got into trouble and afraid that the man might have been threatened and have him imprisoned for six months, he paid the man the \$75. He later learned that this was a criminal offence, he laid the information that resulted in Sugar being committed for trial.

MAGNETIC PEACE KILLED GOLD LUST IN THE PROSPECTORS

L. R. Round, whose address is the northwest corner of the city, was born at Dunvegan, 250 miles northwest of Edmonton on the Peace River, was a little disappointed last night. Although born in a place so typically western as Dunvegan in August, 1885, he still failed to qualify for membership in the old-timers' association and attend the banquet held in the Corona hotel last night, because an old-timer is officially defined as one who resided in the country "prior to 1885." At least that was his impression and when he heard of the old-timers' association, he was disappointed.

Mr. Round is staying at the Leland hotel for a few days before leaving for the Peace River country again. His father, H. R. Round, was the founder of the Peace River country and was the son of his birth, and previous to that was at Fort Garry, now Winnipeg and in the Mackenzie river district. For 15 years in succession they were all kinds of vegetable and fruit growers of a quality superior to that seen in any other part of Alberta or British Columbia, said Mr. Round this morning. When they first went to Dunvegan there were hardly any whites except a few traders in the country. Many started the old-timers' association, but it was not until they got to the fields that they saw, but stayed there when once they viewed the banks of the Peace River.

For the past six years Mr. Round has been running a pack train through the Peace River country, and has been on two railways through the Yellowhead Pass, but now that they are about finished, he is going back to the north with live stock, intending to go into farming on a big scale.

KENNEL CLUB WILL START CAMPAIGN TO DOUBLE MEMBERSHIP

The members of the Edmonton Kennel club held a successful meeting at the council chamber of the city building last night. Mayor McNamara was present and took the chair. In his absence the position was filled by Fred Gibbons. An active campaign to secure 500 members for the club has been launched and the members present last night were quite enthusiastic over the possibility of success for the venture.

The most important part of the program last night was an interesting talk by the president of the club, delivered by Bert Finch. He told many important things about the breed and held the attention of the club members. Another interesting speaker in the person of M. Fleming also addressed the meeting. It was decided that at the next meeting of the club there would also be several speakers who will tell what they know about the breed of the dog family.

A great feature of the meeting was the enthusiasm displayed by the large number of people who were present. Many of the members of the club are not members of the club. Immediately after the proceedings several people signified their intention of joining the association.

PEACE RIVER LINE THROUGH ONWAY TO BE PUSHED IN SPRING

A. T. Fraser, district engineer for the Canadian Northern railway, returned to the city of Winnipeg yesterday, and said that work will be pushed this spring on the Peace River line from Onway northward. At present rapid progress is being made on the bridge over the Pembina river which is held up steel jacking on this branch.

There is a stretch of 20 miles to be laid yet on the short line from Edmonton to Camrose, but it is expected that this line will be completed in the spring. Balfour will also be carried on with all rapidity on the line to the operating department in the spring. This line will also be taken over by the operating department this summer.

MULLIGAN TO BE INCLUDED ON BILL OF FARE IN JAIL

Stew will be served once a day at the police station. The bill of fare (American plan) in the past has not included mulligan. It has consisted of two courses, and in future there is to be three courses, mulligan being one of them. These unfortunate individuals who happen to lodge there. The two courses consisted of tea and mulligan. In future the augmented bill of fare will be tea, bread and stewed meat.

Safety and Health Commissioner M. St. John included an extra \$100 in his estimates for prisoners' food for 1914. Last year it cost the city \$100 to also mulligan. It is estimated for 1914. That was recovered by the city. It is estimated for 1914. That was recovered by the city. It is estimated for 1914. That was recovered by the city.

Alpine Club Banquet
The members of the Alpine club of Canada held a very enjoyable meeting at the residence of Mrs. Stuart, K.C., last evening, on Wednesday evening last. After transacting the regular business of the club, a short program was held, refreshments were served, and then the members and their guests spent the remainder of the evening in social conversation.

UNIFORMS FOR ALL CITY EMPLOYEES TO BE MADE IN HERE

Police uniforms, street railway men's uniforms and other uniforms worn by men employed by the city of Edmonton, and supplied in whole or in part by the city, must be made in Edmonton and under conditions where the "fair wage" clause prevails. The city council so decided this morning in a meeting held in the city hall. The city of Edmonton is maintaining an industrial department to induce industries to locate here and various other measures are being taken to attract business to the city. It has been ordered by the city council that all uniforms supplied by the city must be made in Edmonton. The city council also decided that the "fair wage" clause must be observed in all contracts for the supply of uniforms. The city council also decided that the "fair wage" clause must be observed in all contracts for the supply of uniforms.

THE REASON FEWER PEOPLE TAKE "SALTS"

We find the use of salts and other harsh physics is becoming less every year because more and more people are using Rexall's Oxydine, which we firmly believe is the best bowel remedy ever used. They taste so much like candy that even the little children like them. At the same time they act so easily and naturally that there is no purging, griping or pain. They promptly remove the constipation, and by soothing and strengthening the bowels make it less liable to become constipated. We know that they are made of the best and pleasant, beneficial ingredients that can be used. You needn't take our word for it. If Rexall's Oxydine don't help you—if they don't entirely "rub it out"—write to Rexall's Oxydine and tell us and we'll give you back your money. In every pocket in boxes, 10c, 25c, 50c. Write to Rexall's Oxydine only at The Rexall store, and in this town only at A. Archibald, Druggist, 313 Jasper street.

Case is Dismissed.
A district court case yesterday in which the Alberta Medical society charged Dr. J. H. Kelly, N.D., D.C., with practicing medicine and osteopathy, was dismissed by Judge Crawford, with costs to the complainant. H. H. Robertson conducted the prosecution and A. G. Mackay acted for Dr. Kelly.

Acid Stomachs are Dangerous
Common Sense Advice by a Distinguished Specialist.
"Acid" stomachs are dangerous because acid irritates and inflames the delicate lining of the stomach, thus hindering and preventing the proper action of the stomach, and leading to various ailments. The cause of acid stomach trouble from which people suffer. Ordinary medicines and medicinal treatments are useless in such cases, for they leave the source of the trouble, the acid in the stomach, as dangerous as ever. The acid must be neutralized, and its formation prevented, and the best thing to do this purpose is a teaspoonful of bisulphate of magnesia, a simple article, taken in a little water or cold water after eating, which not only neutralizes the acid, but also prevents its formation. Foods which ordinarily cause greatest distress may be eaten with safety if accompanied by a little bisulphate of magnesia, which can be obtained from any drug store, and should always be kept handy.

WHERE EDMONTON HOLDS
THE EVIDENT ADVANTAGE.

"Los Angeles," says C. E. Stalcof, of Des Moines, to the Industrial Association luncheon, "advertised hot air; but it had the hot air." And that is why people went to Los Angeles. All who wanted hot air were fully informed through the agency of Los Angeles publicity just where it was to be found in great quantities.

Los Angeles is the best example on the North American continent of what can be done in the way of community advertising. They advertised what they had—climate—and got results.

Edmonton's climate is all right, but in the matter of community advertising this city and district does not require to depend upon climate, industrial advantages or really attractions as the magnet, thereby accepting an unnecessary competition in which Edmonton has no monopoly.

Upon the fact that it grows the biggest steers, the heaviest oats, the tallest grass, the finest butter and the most delicious bacon in the world, the greatness of the Edmonton district will depend, and this, to the exclusion of all else, will be the result-getting advertising.

The efforts of all branches of publicity affecting this city and district, let it be federal, provincial, railway, civic, ad club or what you please, should be all bent in the one direction, toward getting people onto the land. When the presently untitled acres tributary to Edmonton are peopled and cultivated, Edmonton will have become the greatest inland city on the continent and Central Alberta the most progressive and prosperous farming country in the world.

A PROPOSAL WHICH CARRIES
ITS OWN RECOMMEND.

The proposal of Philippe Roy, General Commissioner for Canada in Paris, and an Edmonton man who has made good in a very important field, to establish in connection with his office there a library of Canadian literature and statistical publication which will be a reliable reference library, is one which is worthy of consideration.

Mr. Roy's idea is that Canadian authors and publishers should send to him sample copies of all publications which would be placed in the Paris office, where they would be available at all times to Parisians who might desire definite information of any kind with regard to Canada.

As an instance of the usefulness of such a library, there might be, we will suppose, the proposition before French capitalists to develop some Alberta resources—tar sands, for a case in point. Definite and reliable information is the very first thing the capitalist would require. With such a library as Mr. Roy has in mind, everything written upon the tar sands of the Athabasca would be available at once in the office of the general commissioner, and the prospective investor would be able to acquaint himself better with the possibilities in the course of an hour than most people in the city of Edmonton have become acquainted through years of residence here in the city.

Mr. Roy's proposal is self-explanatory and carries its own recommendation.

A CRITERION OF
CONTENTMENT.

The one hundred transfers a day which are going through the Edmonton Land Titles office these times constitute the best evidence possible that commitments are being promptly met in this city and country, and that the people are making headway.

A registration of transfer means that an agreement of sale has been completed, or that it has been carried out to the point where the purchaser takes title, giving a mortgage upon the property for the balance.

Real estate may be very active without much actual cash changing hands, and a flurry in real estate need by no means be taken as an indication that the domesticated folks who live at home and get theirs by methods other than speculation are actually making progress.

But when one such comes into the land office and asks to register a transfer, which indicates that he has made the payments and that he and his family are now living in a house which is their own, that is a criterion which indicates that he and the folks are doing nicely, thank you, and the outlook is cheerful.

So that the hundred transfers a day now going on record at the land titles office indicate quite a sum of comfort, contentment and prosperity in the land, notwithstanding the circumstance that speculative ventures are inclined to drag just a trifle.

THE DAY OF THE AIR SHIP
CLOSE AT HAND.

A Russian aviator, who says that he will carry nine tons of gasoline in an 800-horse-power aeroplane, promises to cross the Atlantic next summer in 14 hours.

If the Russian is as good as his word, it will mean that the whole theory of transportation will have been changed and that the present theory of war will have been very largely abolished. With the practical application of the 100-mile-an-hour air ship, the cavalryman, the automobile corps and the battleship will have gone by the board and the ocean greyhound will be a greyhound of the air. A letter mailed in London today will be in New York tomorrow and in Edmonton the day after. Dawson City and New Orleans will be no farther away from this city in hours than Lethbridge is at the present time, and it will have become much easier to reach the Panama Canal than it now is to get to Vancouver.

Scientists and writers with imagination have long been predicting the day when the navigation of the air would become an every-day, practical and matter-of-fact incident. Quite evidently it is not to be long delayed.

BOARD OF TRADE

WILL VERY SOON
BE 25 YEARS OLDAnniversary Will Be Fittingly
Celebrated Sometime During April.THOUGHT MANY PEOPLE
STUNG BY INVESTMENT CO.Firm Was Refused Registration
in Alberta, But Had
Done Mail Business.

That preliminary arrangements may be made for the celebration of the twenty-fifth anniversary of the Edmonton board of trade at a meeting of the council held yesterday it was decided to name a strong committee to get matters in hand. The probable date for the event was discussed, but while not definitely decided, it was agreed that some time during the week ending April 18 would be the most suitable, as the certificate of incorporation was issued on April 12, but this date being a Sunday it would be impossible to observe the event on the exact date this year.

Secretary Fisher stated this morning that he is in receipt of many letters of inquiry from people who have deposited money, which they cannot recover from the People's Home Investment Co. and the Canadian Home Investment Co., the latter having headquarters in Vancouver. Mr. Fisher, while admitting that both of these companies have been refused registration in Alberta by the Deputy Provincial Secretary, and have therefore been unable to open up offices in this province, yet they have secured money from a large number of people, who are now writing letters of protest and are taking the role of victims with little chance of getting their money back. That the fault is not entirely with those who attempt to secure money for such schemes is the opinion of Mr. Fisher, who states that the same people who are now making complaint will be most likely to fall when another similar proposition comes along dressed in a little different form. "I get on an average six letters a day from people who have been stung, some of them having bought farm lands five or six miles from Edmonton, thinking that they were purchasing city property. The peculiar thing is that at least 95 per cent. of all inquiries for information are received after the victims have been victimized and parted with their money to the agents of the different propositions offered for sale."

TODAY'S BIRTHDAY
PARTY

The Hon. Philippe Roy, who now occupies the post of agent-general for the government of Quebec, is celebrating his forty-sixth birthday today in the French capital. Dr. Roy has the distinction of being the youngest Canadian ever appointed to the dominion, having achieved that rank when only thirty-eight. A native of Quebec and a doctor by profession, he settled in Edmonton, as a young man and there practiced medicine for some time. He eventually became interested in bringing French capital into Canada and because of his success in this work was appointed agent-general of the dominion in Paris, when the office was vacant in 1911. He had previously been called to the senate by Earl Grey. On the change of government he resigned his position as agent-general for Canada and was at once made agent-general for Quebec.

ECZEMA TATCHED
AND BURNEDRash on Legs and Back. Scratching
Irritated Breaking Out. Used Cuti-
cure Ointment. Disease Vanished.

Kentville, N. S.—"For about five years I was bothered with a light rash which would appear most heavily on my legs and back. This troubled me most in the winter of the year. They said it was eczema. The eczema itched and burned and my scratching irritated the breaking out. After it broke out I could not obtain more than three hours sleep each night it pained me so. My legs and back were a solid mass of itching sores."

"I was given some advice and after using this preparation about a week the disease became worse and I could not obtain any rest at night. I used all the patent preparations on the market but they only seemed to increase the suffering and afforded me no relief whatever. About this time a friend recommended Cuticura Ointment to me. However, I had lost faith in all remedies and told him so, but he insisted that I try Cuticura Ointment so I purchased a box. The first application gave relief and in about a week the sores were healing and I was able to obtain a good night's rest, the first I had enjoyed for many months. I continued the treatment for another month and by the time all signs of the disease had vanished." (Signed) Willard F. Allen, May 16, 1913.

For more than a generation Cuticura Soap and Cuticura Ointment have afforded the most economical treatment for afflictions of the skin and scalp that torture, itch, burn, scale, and destroy sleep. Sold everywhere. Price of each mail box free with 25¢. Skin Book. Address post-card Potter Drug & Chem. Corp., Dept. D, Boston, U. S. A.

IMPROVEMENTS AT
THE CORONA HOTEL
ARE COMPLETED

The improvements on the Corona hotel have now been completed and will make this hostelry an even better and more comfortable place for the public than it has been in the past. The main lobby has been moved west of where it formerly was, a new entrance being made to the dining room which has also been greatly improved and enlarged and many new features added and a new staircase having been built.

The new lobby is much more spacious and better in every way than the old and is being beautifully decorated. There is much more office space and larger windows with consequently a finer view of Jasper avenue. To the left of the entrance is the stairway, to the right and close to the office the new bar entrance and at the back the new dining room.

The bar has also been added to, newly decorated and finely fitted up with all the latest conveniences. The hotel is no built that the bar, barber shop and main lobby each have an entrance from Jasper.

THINK SEPTEMBER
BEST MONTH TO TRY
ATLANTIC FLIGHT

New York, Feb. 13.—After making a detailed study of weather maps of the north Atlantic ocean for the last ten years, the water flying committee of the Aero Club of America has decided to recommend the month of September to aviators as the best month in which to attempt a trans-Atlantic flight.

Grand Concert Tonight.
Everything is in readiness for the St. Valentine's concert, to be held in St. Valentine's church, corner Seventeenth and Athabasca tonight at eight o'clock. That the concert will be the best ever given in the city is assured by the array of talent, the best of the city's artists taking part. That the concert will be a huge success from the point of view of attendance is also guaranteed by the large number of tickets disposed of. As there are no reserved seats it would be advisable to be on hand early.

Ski Club Leave for Camrose.
A delegation from the Edmonton Ski club will leave tonight on the C.P.R. train for Camrose, to be present at the Camrose Ski club annual tournament, to be held at that place tomorrow, February 14.

Some of the Edmonton Ski club best skiers will compete at the Camrose tournament, and as Camrose club have some very good skiers, there will be, without a doubt, a keen competition for the prizes.

"RUBE" WADDELL DOWN AND OUT

Superior, Wis., Feb. 12.—Rube Waddell, the great left hander who in his day was one of the best mountaineers that ever worked in the major league, will never pitch another ball. The admission comes from the great Rube himself who has returned his unsigned contract to Kid Taylor of Superior, who is manager of the Virginia club in the Northern league. Waddell came to Virginia just year from Minneapolis and was reserved for this season.

"I am sending back the contract unsigned," writes Rube from Boerne, Texas. "I would like to play but never could get in shape. I might as well admit the truth about myself. I am in hopeless shape. I have lost 54 pounds since I was up north. I now weigh only 151. I am very weak and cannot walk 20 feet. I am writing this in bed. I have a nurse with me all the time and a doctor comes to see me three times a week. He says I probably will be better when warmer weather comes."

Snowshoe Club Enjoy Hike.

Wednesday evening the Edmonton Snowshoe club snow shoe section held a very enjoyable tramp up the Saskatchewan river. The party was composed of a large number of members, with their wives or lady friends, and was very much enjoyed. The ladies of Edmonton demonstrated in a conclusive manner that they can hold their own on snow shoes with the best in Canada, and it was unanimously agreed to hold another tramp of the same kind on Thursday evening next, meeting place Le Marchand Apartments and upon reaching the banks of the Saskatchewan donned their shoes and started down the steep slope. This feat was accomplished successfully amid much jolly banter, which cemented the crowd into a unit of good fellowship. An old expert of unquestioned authority remarked that to be able to negotiate the banks of the Saskatchewan was absolute proof of ability on the snowshoes. The climax was reached when the hill was climbed further up the river and it was a happy crowd that did full justice to the treat so kindly prepared by Mrs. Davis, who can both hike and entertain so excellently.

INTER-VARSITY HOCKEY TONIGHT

University of Saskatchewan Will Battle With Local Varsity Seniors.

The annual inter-arsity hockey game between the University of Saskatchewan and the local Varsity Seniors will take place tonight at the south side rink. The team from Saskatoon arrived in the city last night at 10 o'clock, and spent the sleeping hours in the University dormitories across the river, in preparation for a strenuous game this evening. The visitors are a likely looking lot of hockey material and may be counted upon to give the Varsity seniors the game of their lives. They paid a visit to this city last year, but have a much stronger team with them on this trip than ever before, and are out to win.

The local varsity team will line up as usual, with the exception of the point position, which will be filled by Clark in place of Riley who was injured in the last game against the Pennants, in a collision with Donohue. Lothrop, the speedy cover-point of the locals will be out, and Harold Dean will hold the Allen cap, and the local varsity will flutter on the wings and Chubb will endeavor to keep the rubber from getting tangled up in the net. Beccett will be at center.

This may possibly be the last opportunity of seeing the local Varsity crew in action this winter, as the Northern Provincial league is over as far as they're concerned and there are few games in sight, although there is a possibility of the university of Manitoba sending up a team before the season is over. The local institution is endeavoring to get them to make the trip, playing a game at Saskatoon on their way up. The Winnipeg team would be a good drawing card, as on the team are five members of the well known Winnipeggers, who are going strong after the Allen cap, and the local varsity has offered them a good guarantee to come this far north. The lineup for tonight is as follows:

Saskatchewan	Position	Alberta
Hunt	goal	Chubb
Adams	point	Adams
Porter	cover	Lothrop
Mitchell	rover	Dean
Lytle	center	Wilson
Thompson	right	Dietz

More Trouble in Federal League.

New York, N.Y., Feb. 13.—A new ant developed in the baseball situation here today when the Federal league promoters announced that they would not bid for the services of Johnnie Evers, deposed manager of the Chicago National league club.

Charles H. Weygman, the leading backer of the Federal league, stated that his organization considered Evers under contract with the National league and conforming with the new league announced policy, would make no effort to obtain Evers.
